## CERTIFICATE

- Introduction to **JavaScript** course from **Great Learning**
- Did an Introduction to **Front End Development** - HTML course from **Great Learning**

## ACHIEVEMENT

- Complete **50** days Javascript challenge from **CodeDamn**
- **350+** Questions Solved on **Leetcode**

## SKILLS

### PROGRAMMING

• Java • HTML • CSS • Javascript  
ReactJS • TailwindCss • Scss

## MINOR PROJECT

- **Emotion Recog** | TensorFlow.js
- **Color Picker Extension** | JavaScript

## EXPERIENCE

### NEWTON SCHOOL BOOTCAMP | SOFTWARE ENGINEER INTERN

May 2022 - Jan 2023 | Remote

- Assisted in the development of responsive web layouts using HTML, CSS, JavaScript and ReactJS.
- Collaborated with senior developers to integrate third-party APIs into web applications.
- Participated in code reviews and provided feedback to improve code quality and maintainability.

## PROJECTS

### CHATVID | HTML, REACTJS, TAILWINDCSS | Live | [source](#)

June 2023

- Developed a responsive video chat web app using **Tailwind CSS**, **ReactJS**, and **ZEGOCLOUD** for **real-time audio and video** communication.
- Implemented a robust **chat** feature utilizing **ZEGOCLOUD** technology, facilitating seamless and synchronized **messaging** among participants **during video chat sessions**.
- Ensured a cohesive user experience by seamlessly integrating **chat functionality with ongoing video conversations**, enhancing engagement and collaboration. .

### RESUME BUILDER | HTML, CSS, REACTJS | Live | [source](#)

April 2023

- Developed a responsive resume builder web application using **HTML**, **CSS Modules**, and **ReactJS**, allowing users to easily create professional resumes.
- Implemented an intuitive **drag-and-drop** feature, allowing users to **toddle** sections and **customize** the layout of their resumes effortlessly.
- Incorporated a **shade picker** functionality, enabling users to choose from a preference of **5** shades to personalise their resume's appearance. .

### E-COM | HTML, TAILWIND(CSS), REACTJS | Live | [source](#)

March 2023

- Developed an e-commerce web app using **HTML**, **Tailwind CSS**, and **ReactJS** that replicated the core functionalities of an online shopping platform.
- Implemented a centralized state management system using **React Context API** to manage the application's **state and data** flow efficiently.
- Utilized **Axios** function to call **API** endpoints and retrieve data from the server, ensuring **real-time updates** and seamless **user experience**.

### YOUTUBE-CLONE | HTML, TAILWIND(CSS), REACTJS | Live | [source](#)

February 2023

- Developed a YouTube clone using **HTML**, **Tailwindcss**, and **ReactJS**, which replicated the **core** functionalities of the original application, such as **search functionality and related videos**.
- Worked closely with a **team** of developers to troubleshoot issues and ensure seamless integration of components and features.
- Implemented **React components** to create a responsive and interactive layout that **dynamically rendered data from an API**.
